INTRODUCTION

During the year North Toronto (comprising Davisville, Eglinton and Bedford Park) and Moore Park have been annexed to the city and are included in this volume as part of it. These will add to the city's area some ten square miles and to its population over 7,000.

POPULATION

This edition contains by actual count 171,592 individual names, exclusive of firms, corporations, etc., an increase of 10,228 over last year. We estimate the population of Toronto, December 31st, 1912, as

475,296

and at our present rate of increase Toronto will be a city of over **HALF A MILLION** by December 31st, 1913.

In 1901 we estimated that Toronto would have a population over 550,000 in 1920, now our forecast is that this figure will be reached by 1915. This estimate was ridiculed by many, but present figures show that our estimates are conservative.

During the last ten years Toronto has had an average yearly increase of 6.03%.

The population since 1902 :—	Dec. 31, 1904....293,395	Dec. 31, 1907....355,726	Dec. 31, 1910....424,057
Dec. 31, 1902....266,989	1905....305,244	1908....365,923	1911....443,751
1903....279,526	1906....328,801	1909....402.567	1912....475,296

Applying this ratio (6.03%) of increase for the next 13 years Toronto's population would grow as follows :—

Dec. 31, 1913....503,796	Dec. 31, 1917....635,976	Dec. 31, 1920....757,446	Dec. 31st, 1923.... 902,066
1914....533,976	1918....674,136	1921....802 886	1924.... 956,186
1915....566,016	1919....714,576	1922....851,006	1925....1,013,546
1916....599,976			

The city now contains 1,645 streets and 88,024 buildings of all kinds, as shown by the Street Directory, an increase in the latter of 6,703 over last year. Of these 3,994 are shown vacant, as compared with 3,789 last year. This increase, of course, includes houses and buildings in course of construction.

The Births, Marriages and Deaths in Toronto for the past six years are as follows :
